## THE ARYAN PHILOSOPHY

What we must give today to our children are the tools which they will employ to build a new world tomorrow.

A knowledge that they will use to correct the mistakes that we make today, the wisdom, that will help them find the answers that we have not yet found, they will go distances that even our imagination has not been able to fathom.

# THE ARYAN SCHOOL

# THE MISSION STATEMENT

A sound education aims at the refinement of both character and personality. A good school strives and continuously works to weed out what is undesirable and carefully nurtures what is desirable. The purpose of meaningful education is not only to impart knowledge but also to produce compassionate, tolerant and strong individuals.

The Aryan School aims at such goals and stands committed to develop an individual's honesty, loyalty, perseverance, self-confidence and discipline at the gates of life, after he/she passes through the portals of learning.

It is the firm belief of The Aryan School that a fine balance between academic pursuits and extra curricular activities leads to the all round development of a child and it is this belief that continuously motivates the school to provide such an atmosphere and opportunities to the students, where they can nurture and hone their talent and skills. The school aims at inculcating in its students strong ethics and moral values, handed down by our ancestors, and developing a techno savvy personality, which equips them to the best of what the world has to offer.

A broad curriculum is offered to students, exposing them to a wide array of subjects. We believe that learning should be fun, a process of discovery, a gradual unfolding of the mind and not a highly pressurized tension filled and result oriented system.

The Aryan School is an English medium, Co-Educational International Day Cum Day-Boarding & Residential School, affiliated to the C.I.S.C.E. Board.

It is suggested therefore that parents try and fix wedding dates during the holidays.

### **ASSESSMENT OR EVALUATION**

The school believes in all round development of the child, and does not advocate a highly pressurized, stress filled result oriented system of education. However, at the same time, it is imperative to develop a competitive spirit in the child to face the challenges of the modern world. For this, regular assessments and evaluations are an important medium to check the progress of the students. This helps the teachers to find out the weak areas and also direct their energies towards fruitful endeavor. Monthly tests and periodic examinations are held to assess the child's ability and academic excellence.

### **THE FACULTY**

Teachers are the most important catalysts in the development of a child's personality and character. Spending their time and energy with the children, they influence and guide the child in becoming a strong and good human being. A highly qualified and experienced team at The Aryan School provides an innovative educational input. All our teachers are selected personally by a senior board, comprising veteran educationists. Special stress is given to their level of communication in English, and their teaching skills along with a value based personality. Our teachers are not just highly competent in their academic areas but good-natured, open-minded individuals with strong communication abilities, and act as role models for the children. They are sent for workshops and orientation programmes on regular basis to stay abreast with the latest trends in education.

### **MEDICAL FACILITIES**

Basic and emergency medical facilities are available on the campus to provide a healthy stay for the children. Qualified and experienced nurses look after the infirmary and a doctor visits regularly. The school also maintains special arrangement with a nearby multi speciality hospital. Regular check ups are conducted to look after the general well being of the students, and parents are regularly informed about the health of their wards.

The parents are also requested to keep the school informed about all medical reports of the child, regarding allergies to any substances, treatments, if any, going

on, to keep the school records updated. A medical form will be sent to parents before every vacation which must be completed and returned at the start of each term. A routine checkup must be done of teeth, eyes, ears, nose and throat during the vacations.

### CO-CURRICULAR ACTIVITIES & HOBBIES

It is very important to offer rich co-curricular activities to students of all ages. It is only through this exposure that a child becomes aware of his/her special interests and talents. This in turn allows a child to receive appreciation and grow with confidence. This confidence then gets reflected in other areas leading to all round growth and progress. Our co-curricular activities include hobbies, publications, special interest clubs including community service. The nature and range of these activities are not static and continue to evolve as per the interests and talents of the student. The co-curricular activities offered include clubs and societies for English & Hindi debating, creative writing, recitation, etiquette, quiz, chess, nature preservation and so on. Publication includes an annual school magazine 'Sanskar'. Community service includes visits to an old age home educating the community on waste management, campus and township cleanliness and specific projects for the community at large.

Nothing is good enough for our children.  
We must do our very best for the coming generations.  
It is our abiding duty. Let it begin with a good education.  
In the formative years children must receive much more to develop their thinking skills.  
The heritage of knowledge of our nation and the world, must surround them.  
It must become the playground of their minds.  
The secrets of which they will then be tempted to explore, discover and cherish.
